

# A newspaper made by the reader

WE MADE PAGES THAT COULD BE USED BY THE READERS

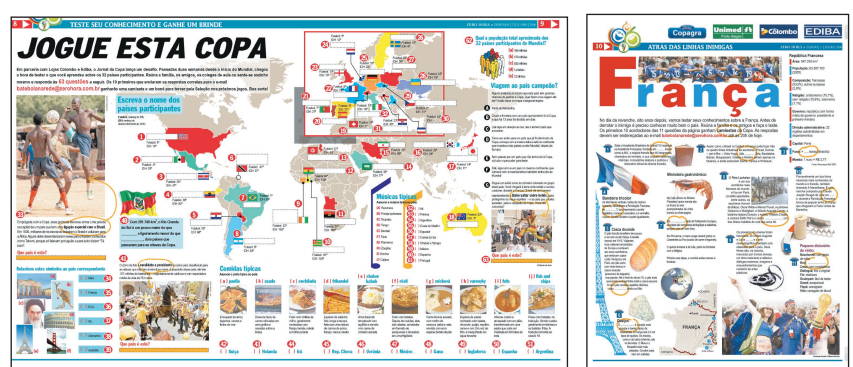

One personalized poster of the Brazilian team. Each reader could use the blank spaces to build the poster according to their aspirations, their ways to support Brazil, the ways they wish bad luck to their rivals, the way they support their local teams.

Personality tests to help the reader to define to which team they were more likely to support when Brazil wasn't playing.

Board games just for amusement.

General information games (quiz style) to stimulate the newspaper's use in schools.
